

NutriCol®

**THE NON LAXATIVE THAT RESOLVES AND REGENERATES
PROMOTES THE REGULARITY OF INTESTINAL TRANSIT
COLON AND LIVER CLEANSER**

NUTRIGEE®
your health at 360°

NutriCol® is an exclusive and time-tested mixture of “immortal” Bifidobacteria, natural components of the intestinal microbiota, Klamath microalgae and of herbs acting on liver and colon, plus digestive enzymes. **NutriCol®** resolves any constipation problems, but without the potential side effects of laxative, instead working to regenerate the gut and its functions, restoring the delicate gastrointestinal balance, and reestablishing regular correct intestinal motility. NutriCol has been a success for over 20 years in Italy, where it's a best seller for its amazing effectiveness.

WHY “IMMORTAL”?

Through our research, we found (and patented our discovery) that by adding Klamath algae to the culture of friendly bacteria, they increase greatly their vitality: while in ordinary cultures, bacteria such as acidophilus and bifidus grow for no longer than 48-72 hours, if they are cultured with Klamath algae they keep growing indefinitely, and they also triple their ability to kill off E. Coli, Staphilococcus Aureus, Candida and all sort of pathogens.

NUTRICOL® IS RECOMMENDED:

- for constipation;
 - for a generalized gastrointestinal purification;
 - in colon inflammation and hepatic-biliary poisoning;
 - as an adjuvant to the immune system and in metabolic syndromes.
- To effectively support gastro-enteric functions.

INGREDIENTS: Psyllium (Plantago ovata Forsk.) Cuticle (integument), vegetable capsule (Hydroxypropyl methylcellulose), Dandelion (Taraxacum officinale [D.C.] Web.) Root, Bifidobacterium bifidum (CNCM I-5091), Aloe ferox Mill. Juice, rhubarb (Rheum officinale Baill. Rhizome and Rheum palmatum L. root), microalgae Klamath RW®max (Aphanizomenon flos aquae), EnzyMax® enzyme complex from plant substrates fermented with Aspergillus oryzae, Aspergillus niger and Rhizopus oryzae (Amilasi, Amilasi, Amilasi Protease, Lactase, Pectinase, Cellulase, Lipase), Berberis regelat DC bark of the plant es (8% berberine), Cascara sagrada (Rhamnus purshiana DC) bark dry extract (18-20% total hydroxyanthracenic glycosides expressed as cascarioside A), bulking agent: Acacia gum; Echinacea purpurea (L.) Moench aerial parts dry extract (4% total polyphenols), Milk thistle (Silybum marianum [L.] Gaertn.) Fruits dry extract (80% silymarin, 30% silybin and isosilibine), Ginger (Zingiber officinale Roscoe) rhizome, Fennel (Foeniculum vulgare Mill.) Fruits, Bamboo (Bambusa arundinacea) e.s. (75% Silicon dioxide of natural origin), regelatinised corn starch, potato starch.

METHOD OF USE:

Initially: 2 capsules 2-4 times a day, to reduce progressively as gut function normalize; preferably before meals, with plenty of water.

GLUTEN FREE

Available in 60 CAPSULES.
